For the entire ITIL community, AXELOS has announced that since 1 January 2018, all new ITIL® Foundation certificates will include by default 1 year subscription to ITIL (ITIL Membership) membership. In this way AXELOS, in response to the feedback of both the ATOâ s (Accredited Formation Organizations) and the students, reinforces the importance of its commitment to professional development. What does the MembresÂ© include? ITIL membership includes tool kits, templates, official documents, as well as guidance to help the student who works with this framework. How can candidates claim their subscription to the ITIL Membresy? Each candidate who obtains a new ITIL Foundation certificate from January 1, 2018 will be contacted by AXELOS to activate their subscription. First, students will be contacted once AXELOS receives the successful data of the candidate. AXELOS will work actively with PeopleCert (EI) to improve and automate this process throughout 2018. Candidates will be invited to claim a digital badge that is linked to their ITIL Foundation certification. To claim the badge, the ITIL qualification data of the candidates should appear in the Successful Candidates Register (SCR) of AXELOS, which can opt for the portal in PeopleCert's line. About AXELOS and QRP International AXELOS is responsible for developing, improving and promoting a series of methodologies based on good practices and used globally by professionals who work primarily in the management of projects, programs and portfolios, IT services management and cyber resilience. In 2015, QRP International was selected by AXELOS to be part of the Strategic Partner Scheme. QRP was named among the first 24 strategist partners, of more than 500 AXELOS certified partners in allworld. With this announcement, Axelos has recognized the importance of QRP International's role to help positively grow its portfolio and its community of good global practices.
